ABOUT REBON

DE&E Holding Group

Originally established in 1992, DE&E has been providing high-quality products for over 5 million families in 40 countries. We advocate tasteful value experience, bring healthy and high-efficient solutions to kitchen environment for the general consumers, and create a happy and delightful golden life.

DE&E has invested 100 million US dollars to build the most advanced intelligent factory for kitchen appliances in China. The factory covers an area of 78,000 m, construction area nearly 195,000 m , and the yearly output value can up to 800 million US dollars.

By taking industry 4.0 as the design concept, network system and IOT (internet of things) as technological base, DE&E intelligent factory successfully implements intelligent operation during the whole process from product designing, procurement, manufacturing to warehousing logistics. It becomes a technical transforming model from traditional kitchen appliances manufacturer.

Hangzhou Rebon Cabinets Co., Ltd. is a subsidiary of DE&E Holding Group Co.,Ltd, which is located in Jingjiang industrial zone of Xiaoshan District, Hangzhou City, Zhejiang Province, only 10 minutes from Hangzhou International Airport

It's a large-scale modernized enterpricse,specialized in producing European style kitchen cabinets,offering various door material such as lacquer,MFC,PVC,solid wood and UV doors. The ISO9001 & ISO14001 certified company is also awarded with “China Famous Brand” & “China Top Brand” thanks to steady and reliable quality as well as leading market share. All the machines in our factory are Homag or BIESSE brand.

Rebon Cabinets is proud to be suppliers of value for many quality joinery products for all sized projects, from major through to smaller-scale developments. Our product range, service and technical knowledge is second to none in the industry and our prices are highly competitive. Rebon has supplied cabinets to many residential buildings as well as many other projects ranging from 10 to 200 Apartments/Townhouses over 100 countries.

We will provide excellent service and competitive price for you,we are expecting to become your long-term partner in China..

Rebon Cabinets, Art Brighten your Life

We are a multiple award winning cabinets manufacturing company that specializes in kitchen cabinets, wardrobes and vanities etc for home furnishing. As a company who drafts the national cabinet’s industry standard, it has won not only “Top 10 Chinese Cabinet Brands” for seven consecutive years but also many other honors such as “China Red Star Design Award”. Rebon was selected as an industry model by “Quality” section of the CCTV Outlook Channel and passed ISO14001:2015 Environmental System Certification and China Environmental Labeling Certification.

In order to establish ourselves as a leading cabinets making company, we choose to only use the most up-to-date technology and equipment to manufacture cabinets. Most carpenter machines are imported from German, including panel saw, edge bender, CNC, Drilling and automatic production machine.

Keeping up to date with the latest industry trends and product developments allows us to optimize your designs and ideas. We are here to help you with design inspiration, as well as in selecting the right materials and finishes for your project. Various materials, such as Lacquer,Melamine,PVC,,Solid Wood, UV and Acrylic are available for your options.

Rebon Vision

We are convinced that people's pursuit of high quality of life will never stop. Rebon will also strive to be elegant, focus on providing higher quality products and services, and embed comfort, fashion and elegance into your life to give people an honorable life experience and satisfy people’s pursuit of beauty and high quality of life.

Rebon Concept

100% Dedicated 100% Original Design 100% International Standard Technology

DE & E Kitchen Appliance Factory

With an investment of 700 million yuan and an area of 200000 square meters, the factory is a large-scale modern enterprise specializing in the production of range hoods, household stoves, disinfection cabinets, steaming boxes, ovens, dishwashers, water heaters and other kitchen and bathroom appliances.

Rebon Cabinets No. 1 Factory

The factory invested 260 million yuan, and the factory covers an area of 36,000 square meters. It has advanced production lines such as German Homag and put it into use at the end of May 2010.

3 MANUFACTURING BASES

Build an Asian Model Factory

Rebon Kitchen Cabinets IHome Furnishing all products including solid wood and lacquer kitchens are all independent R&D and in house production. With the tenet of “Building an Asian Model Factory”, we select industry-leading equipment (imported from Germany and Italy), and we have eight intellectual production lines. Professional institutions and major universities are based on the concept of industrial intelligence 4.0, combined with flexible custom thinking to re-build and upgrade. Compared with traditional production equipment, the production efficiency has increased by more than 62%, and the qualified rate is as high as 99.8%, which greatly reduces the overall cost of product production.

Rebon Cabinets No.2 Factory

The factory has invested 150 million yuan and the factory covers an area of 30,000 square meters, which has been put into use in 2020, based on the concept of industrial intelligence 4.0.

REBON HONOR

LIVING ROOM

55° GREY

German industrial style kitchen, low-key and rich in texture, minimalist design, makes the cabinet very modern, with wooden dining table, bringing a touch of warmth and nature.

Kitchen

Bedroom

THE ORIGINAL

Living Room

Closet

BEDROOM

KITCHEN

LOVE IN CITY

The island cabinet of LOVE IN CITY is not only beautiful and elegant, but also integrates multiple functions such as a dining table, a storage table, an invisible table, with the turnover socket, plays an important role in the kitchen.

Transform the ordinary kitchen into a social space full of emotional appeal.

Living Room

Bedroom

Bedroom

Closet

Bedroom

PLATO

Newest Italian style wood finishes kitchen cabinet --PLATO first appearance. This series mainly design with solid wood veneer door, it can show the luxury of full house but the price is much cheaper than solid wood.

LIVING ROOM

NORDIC IMPRESSION

Adhering to the refined life concept of northern Europe, we on the basis of the 30 - degree gray tone, the chaotic natural texture is combined with the repeated rectangular structure to carve it. Tiffany's blue creates a soothing rhythm without losing style, and adds a small amount of technical black elements to improve the quality of the whole space.

LIVING ROOM

URBAN LADY

The "Urban Lady" design is inspired by women's vogue bags. The whole product is based on PVC warm white color, and the walnut color block is partially decorated with gold. Combining women's understanding of warm, vogue and luxury, the door type of the whole set of products is specially designed into a fashionable micro-formation form, Which adopts the surface treatment effect of the skin texture, and strives to achieve a warm and elegant artistic conception.

Living Room

Elizabeth II

High sense is both pragmatic, Elizabeth II no longer inherits the seriousness and formality of classical French, and the designer softens the "complexity" of French and the "simplicity" of modern, giving it a more cordial and flexible side.

White Jade III

Originated from ancient Greek and Roman culture, the modern simple European style, with simple colors and simple lines, attract people inadvertently. A sharp contrast between cool white and warm wood grain, when the sunlight penetrates into the room, share this beautiful moment with family.

Simple European style is more minimalist and close to nature. At the same time, it abandons the complicated texture and decoration, simplifies the lines, endows fashion temperament, and gives consideration to practicality and diversity, with luxury and elegance and romance just right.

COFFEE LUMIERE III

Pure white, vibrant brown, fresh and eye-catching, following the American luxury design style, creating a visual space full of beauty, and elegance touch the bottom of your heart.

Simple geometric lines collide with modern luxurious, fashionable and romantic elements, which are freely combined in space with different shapes, materials and proportions, so that the space is full of vitality and ever-changing beauty, and a casual romance is inadvertently achieved. Full of warm details, this world is filled with a warm in the home, which accords with the pursuit of petty bourgeoisie lifestyle by young people nowadays.
